THUMBPRINTS

Of all the little things we seek.
Our thumb appears, to be unique.

Have you seen your own thumbprint?
It has a unique imprint.

No two thumbprints look the same.
But they make a very good game.

Six billion people, throng the globe.
Each with a unique thumb lobe.

Every thumbprint, in the world, has different lines, different whorls.

Print your thumb, look up or down.
You might find, in it a clown.

A bird, a lion, a crawling snail.
A fish, a peacock, snorting whale.

In your thumbprint, you will find.
Lots of things, to open your mind.
